

Certificate of Analysis

Page 1 of 1

Client:	Pomona Group Limited	Lab No:	3645577	SPV1
Contact:	Jona Maghilom C/- Pomona Group Limited PO Box 21806 Henderson Auckland 0650	Date Received:	09-Aug-2024	
		Date Reported:	11-Aug-2024	
		Quote No:	122346	
		Order No:		
		Client Reference:	Glove swabbing	
		Submitted By:	Jona Maghilom	

Sample Type: Fomite

	Sample Name:	Nitrile Box S B:20240301 Lot:16289	Nitrile Box L B:20240630 Lot:16728 a	Nitrile Box L B:20240630 Lot:16728 b
	Lab Number:	3645577.1	3645577.2	3645577.3
Total Coliforms	cfu / item	< 1	< 1	< 1
Escherichia coli	cfu / item	< 1	< 1	< 1

Summary of Methods

The following table(s) gives a brief description of the methods used to conduct the analyses for this job. The detection limits given below are those attainable in a relatively simple matrix. Detection limits may be higher for individual samples should insufficient sample be available, or if the matrix requires that dilutions be performed during analysis. A detection limit range indicates the lowest and highest detection limits in the associated suite of analytes. A full listing of compounds and detection limits are available from the laboratory upon request. Unless otherwise indicated, analyses were performed at Hill Labs, 28 Duke Street, Frankton, Hamilton 3204.

Sample Type: Fomite

Test	Method Description	Default Detection Limit	Sample No
Total Coliforms	Sample item/s rinsed in sterile buffer, Membrane Filtration, Resus on TSA, Count on mEndo Les agar, Incubation at 35°C for 20.5-22 hours, Confirmation. APHA 3.7 5 th Ed (modified).	1 cfu / item	1-3
Escherichia coli	Sample item/s rinsed in sterile buffer, Membrane Filtration, Count on TBX agar, Incubation at 44°C for 24 hours. APHA 3.7 5 th Ed (modified).	1 cfu / item	1-3

These samples were collected by yourselves (or your agent) and analysed as received at the laboratory.

Testing was completed on 11-Aug-2024. For completion dates of individual analyses please contact the laboratory.

Samples are held at the laboratory after reporting for a length of time based on the stability of the samples and analytes being tested (considering any preservation used), and the storage space available. Once the storage period is completed, the samples are discarded unless otherwise agreed with the customer. Extended storage times may incur additional charges.

This certificate of analysis must not be reproduced, except in full, without the written consent of the signatory.
